Newport Beach-based Perricone Juices donates \$47,500 to Miracles for Kids

Through the Fourth Annual Home Runs for Kids program, Newport Beach-based Perricone Juices – a third generation family-owned grower and manufacturer – has graciously donated \$47,500 to Miracles for Kids, a Southern California nonprofit with a sole mission to improve the lives of critically ill children and their families in need.

Perricone Juices donating \$53,750 after the 2019 Home Runs For Kids Program

For every Los Angeles Angels home run in the regular season, Perricone Juices donated \$250, and the total amount raised directly benefits the families Miracles for Kids supports.

The \$47,500 raised from the 190 home runs in the 2021 season will directly support the organization's programs that provide ongoing, multi-year services to hundreds of low-income families with children battling life-threatening illnesses and conditions.
